EDUCATION

International University of East Africa (IUEA)
Bachelor of Information Technology (Ongoing)
2022 – Present, Kampala, Uganda

Institut de l'Unikis (DRC)
High School Diploma (Diplôme d'État)
Completed: 2021, Kisangani, DRC

SKILLS

- Web Development (PHP, Laravel, Java, Tailwind CSS)
- Database Management (MySQL, Firebase, Supabase)
- Networking & ICT Support
- Microsoft Office (Word, Excel, PowerPoint)
- Problem Solving & Team Collaboration

LANGUAGE

- English
- French
- Lingala
- Swahili

PROFILE

Motivated and detail-oriented Bachelor of Information Technology student at the International University of East Africa (IUEA). Skilled in software development, IT support, database management, and system analysis. Passionate about developing innovative and secure digital solutions that improve efficiency and solve real-world problems. Strong ability to work in teams, learn new technologies, and adapt to challenging environments.

EXPERIENCE

- June 2024 – Present**
- International University of East Africa (IUEA)**
- ICT support
- Provided technical support to students, lecturers, and administrative staff.
 - Assisted in troubleshooting hardware, software, network, and Wi-Fi connectivity issues.
 - Supported the installation, configuration, and maintenance of computer systems.
 - Assisted users with account management and ICT-related services.
 - Worked closely with the ICT department to ensure smooth daily operations.

- June 2024 – Present**
- Academic Project & University Personal Work**
- ICT support
- Designed and developed web-based systems using PHP, Laravel, MySQL, and JavaScript.
 - Applied system analysis and software development methodologies to create practical solutions.
 - Participated in database design, implementation, testing, and deployment.
 - Created responsive user interfaces using Tailwind CSS and modern web technologies.
 - Performed system testing, debugging, and documentation.

TECHNICAL SKILLS

Programming Languages

- PHP
- Java
- JavaScript
- HTML5
- CSS3

Frameworks & Technologies

- Laravel
- Tailwind CSS
- Bootstrap
- Firebase
- REST APIs

Database

- MySQL
- Firebase Firestore
- Docker

Tools

- Git & GitHub
- XAMPP
- Visual Studio Code
- Android Studio
- Linux (Ubuntu & Kali Linux)

Professional Skills

- System Analysis and Design
- Database Design
- Software Testing and Debugging
- Technical Support
- Problem Solving
- Team Collaboration
- Project Documentation

ACHIEVEMENTS

- Successfully developed multiple university-based management systems.
- Participated in ICT support operations at the International University of East Africa.
- Designed and implemented complete web applications from analysis to deployment.
- Gained practical experience in software development, database management, and system administration.

MAJOR PROJECTS

DOCUMENT TRACKING SYSTEM

Laravel, Firebase,MySQL

- Developed a digital platform for document submission, tracking, and management.
- Implemented document upload and status monitoring features.
- Designed secure data storage and retrieval mechanisms.
- Improved document processing and workflow management.

SMART BIOMETRIC ATTENDANCE SYSTEM

Laravel, Hivision

- Designed a biometric attendance management system for educational institutions.
- Implemented fingerprint-based attendance verification.
- Generated attendance reports and academic performance insights.
- Improved attendance tracking accuracy and efficiency.

WI-FI REQUEST MANAGEMENT SYSTEM

PHP, Laravel, MySQL

- Developed a centralized platform for managing student Wi-Fi access requests.
- Implemented request approval, rejection, and notification features.
- Designed an administrative dashboard for request management.
- Enhanced efficiency in handling student network access requests.

WI-FI REQUEST MANAGEMENT SYSTEM

PHP, Laravel, MySQL

- Designed a secure electronic voting platform for university elections.
- Implemented voter verification and result management.
- Developed responsive interfaces for voters and administrators.
- Focused on transparency and security throughout the voting process.
